Article 2.3 – Admission to Research Master's tracks

In addition to the provisions of Article 2.1, the following admission requirements apply to the various Research Master's tracks in this degree programme: n/a

Article 2.4 – Registering for the admissions procedure

Students register for the admissions procedure by submitting the following documents:

- a completed registration form
- a curriculum vitae
- an overview of the results achieved so far within the Bachelor's degree programme and/or other university degree programmes
- a letter outlining the prospective student's motivation for selecting the programme and Research Master's track, including his or her expectations and interests
- if possible, written results of previous research, such as academic articles or a Bachelor's thesis

¹ Sufficient knowledge, understanding and skills means that in the opinion of the Admissions Board, the student will be able to follow the programme without credit points having to be reserved to make up a shortfall in subject mix.

- two personal recommendations from relevant experts²
- other documents, if required, which in the opinion of prospective students will highlight their eligibility for the programme and Research Master's track .

Article 2.5 – Admissions procedure for the degree programme

1. Bearing in mind the admissions procedure for the degree programme and the Research Master's track within the meaning of Article 2.1.1, the Admissions Board will assess the knowledge and skills of the candidate. The Admissions Board will assess the written documentation and determine whether the prospective student can be admitted directly to the programme and the Research Master's track . In the event of doubt, the student will be invited to an admissions interview. The interview will be based on the submitted written documentation and may comprise an approx. 15-minute presentation on an academic subject related to the chosen programme.
2. If, on the basis of the submitted documentation, the Board is of the opinion that the student does not qualify for admission and that there is therefore no need for an interview, the student will be notified accordingly before 15 June. This is a *provisional* decision only. Prospective students may still request an interview, provided they do so within 15 working days. If prospective students do not avail themselves of this option, the provisional decision will become *definitive*. In the case of prospective students who are granted an interview, a formal decision will not be made until after the interview has taken place. Rejections will in all cases be substantiated in writing. Students who have been interviewed will be notified by 15 July whether or not they have been accepted.³
3. Students who have not yet obtained their Bachelor's degree at the time of the selection procedure but who would normally do so before the Research Master's degree programme begins may be granted provisional admission. This is based on the assumption that they a) obtain their Bachelor's degree in time and b) have written a BA thesis with the required level to follow the Research Master.
4. Students who already have a relevant university Master's degree may also apply for admission to the degree programme and the Research Master's track . The procedure as set out above will also apply to them. If they are admitted, the Board of Examiners will decide whether they can be granted exemptions on the basis of that Master's degree (up to a maximum of 60 ECTS credit points).

Article 2.6 – Entrance examination: times

1. The entrance examination will be held once a year as the degree programme commences in the first semester.
2. Requests for admission to the degree programme and the Research Master's track must be submitted to the Admissions Board before 1 May.
3. In exceptional cases, the Admissions Board may decide to consider a request at a time other than that referred to in Article 2.6.1.
4. The Admissions Board will decide before 15 June. Admission will be on condition that the candidate has satisfied the requirements set out in Article 2.4 concerning knowledge and skills by the starting date of the degree programme at the latest, supported by certificates from the degree programmes followed. The written admission statement will include information for the student about the possibility of an appeal to the Board of Appeal for Examinations.
