UNIVERSIDAD DE CHILE

The impact of climate change on the thorn-tailed Rayadito in northern and sub-Antarctic Chile

Study species (*Aphrastura spinicauda*)

Supervisors:

Primary:

PhD – Joseph Churchill

Secondary

Prof Jan Komdeur (University of Groningen)

Prof Rodrigo Vásquez (Universidad de Chile)

Key Info:

- Fieldwork takes place in Chile from the end of September – mid December (we'll be home for Xmas)
- Several exciting projects available on the impact of climate change on Rayadito's
- No specific training with birds needed
- Spanish speaking is preferable but not essential
- You will need to be capable of long fieldwork days (sightseeing to compensate)
- Please contact Joseph Churchill to register your interest!
